DETAILED ACTION

Claims 1-3, 6, 15, 22, 24-27, 33, 37-39, 42, 43 and 45-56 are pending.

Action Summary

1. Examiner acknowledges the cancellation of claim 23. Therefore, any and all rejections directed toward it is hereby withdrawn.
2. Examiner also acknowledges the addition of claim 56, to correct the claim objection.
3. The rejection of claims 22, 24-27, 33 and 46-55 under 35 U.S.C. 112, first paragraph is being maintained for the reasons stated in the previous office action.

Response to Arguments

4. Applicant's arguments filed April 7, 2004 have been fully considered but they are not persuasive.

Applicant argues that "prophylaxis" which respect to the embodiment is appropriate. It is argued that this kind of "dressing" for inflamed gut mucosa prevents in the case of pouchitis the deleterious effect of fecal stasis of bile acids. It is unclear to examiner how xanthan gum and HPMC prevents pouchitis and the deleterious effect of fecal stasis of bile acids. Applicant states that xanthan gum and HPMC are not metabolized by the body and pass through the GU tract unchanged, then is stated how xanthan gum and HPMC becomes a protective layer in the gut mucosa. It is unclear how it passes through the gut and also acts as a protective layer.

Allowable Subject Matter

5. Claims 1-3, 6, 15, 37-39, 42, 43 and 45 remain allowed.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claim 56 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. See office action dated January 28, 2004 for rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
